

# CON29DW Residential

Launched by the Law Society, the CON29DW Residential provides essential and possibly deal-breaking information about a property's water and drainage services. The CON29DW Residential identifies potential risks to ensure the customer is able to make an informed decision before the exchange of contracts.

## Key Features

- Provides details of water and drainage connection to a property
- Asset plans for both water and drainage
- Identifies adoption agreements
- Confirms whether Build Over Agreements are in place
- Water Hardness classification
- Low water pressure
- Internal flooding from overloaded public sewers
- Front page Summary
- Interpreting Your Report section

## Benefits

- Offers peace of mind
- Identifies risk
- Removes need for insurance
- Backed by robust guarantees
- Endorsed by the Law Society

## Turnaround Time

We aim to return results within 1-2 working days.

Example sewer map extract

The CON29DW Residential consists of 25 standard questions answered by all DWSN members. It means that wherever the property is situated, the CON29DW Residential will contain the same set of questions.
