

SiteSolutions

Highways

An insight into planned changes to roads and rights of way affecting commercial sites and residential properties.

What's included

Road maintenance status

Footpath maintenance status

Verge maintenance status

Traffic schemes & orders

Scheduled roadworks

Existing public rights of way

Proposed amendments to public rights of way

Key features

- Prompt turnaround time
- Fixed cost for single property sites. (Sites consisting of multiple parcels may be subject to additional fees)
- Consistent, concise format
- Manual data aggregation
- Backed by £10m professional indemnity cover
- Includes data sourced from the relevant County Council & Local Authorities across England & Wales
- Up to 15 hectares

Designed for:

- Residential and commercial conveyancing transactions

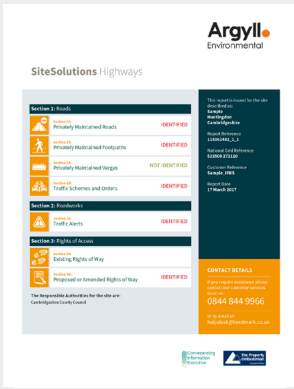

Use this report to understand:

- If roads, footpaths and verges are maintainable at public expense
- Road improvement schemes and orders
- Forthcoming roadworks
- Identification of public rights of way and proposed amendments to any surrounding the site

Why you need it:

For every transaction it is critical to investigate the adoption status of roads surrounding a site. Failure to identify flaws in the adoption status (confirming maintenance responsibility) can cause delays to the transaction as well as pose a risk to the purchaser's future plans for the site.

In addition, it is important to consider what impact proposed changes to on-street parking, waiting and loading restrictions and road improvement schemes could have the use of the site.

Peace of mind guarantee

Professional Indemnity Cover of £10million*

The report

This report addresses questions posed by the London Property Support Lawyers Group (LPSLG) and Association of Property Support Lawyers (APSL). As recommended enquiries in relation to Highways, the following are provided:

- Manually assembled site plan provided to show the boundaries of publicly maintainable highways including verges
- Road improvement or widening schemes and road closure orders affecting the roads near the site are clearly listed
- Provision of a map to show public rights of way across and surrounding the site
- Confirmation of any amendments or proposals to amend public rights of way including (but not limited to) public path orders, map modification orders, diversions, extinguishments or deemed dedications as highway land

These other reports may be relevant to your site:

Energy and Infrastructure

Obtain details of a number of selected Energy and Infrastructure projects across the UK and make sure you are fully informed about the potential impacts. Our report can help by informing if the site is likely to be impacted by development projects.

Included in the report:

Wind farms, HS2, Crossrail, energy exploration e.g. fracking, solar farms and renewable power plants.

Flood Solutions Commercial

This report provides an accurate and affordable view of all types of major flooding.

Included in the report:

A manual assessment with clear commentary and recommendations from one of Argyll's expert consultants.
